

**Artem U.**

**Android Developer**

29 y.o.

Ukraine, Zaporizhzhya

artemudovichenko90@gmail.com

## Summary

My name is Artem and I'm android developer for about 3 years. I mostly specialize in android applications. Along with that I have advanced knowledge in XML. I've successfully completed More than 3 long-term projects and a number of one-time projects. I've been working mainly as an Android Developer.

I possess considerable experience in developing applications for android and team cooperation.

If you want a reliable and easy-going team member, who participated in the development of many applications then let me help you. Working with me, you'll receive an individual approach to your project and a high-quality result.
